To the Trade:

It is with renewed confidence that we submit this 1935 Trade List, devoted exclusively to Selected Strains of Flower Seeds for Florists.

General business conditions are decidedly better than a year ago, and the upward trend is unmistakable in the Florists' industry.

Better prices, which again will enable the Florist Grower to operate on a profitable basis, are inevitable. And, toward that end, a primary factor is the planting of Novelties and Strains of High Merit.

We are pleased, therefore, to offer herein a complete service in seeds—all selected strains from only the most dependable growers throughout the world—and respectfully solicit your valued commands.

NEW FLOWER CREATIONS

for 1935

ANTIRRHINUM—RUST PROOF—UNIVERSITY OF CALIFORNIA DE LUXE MIXTURE. Awarded Certificate of Honor in All-America selections for 1935. An outstanding achievement resulting from extensive trials over a period of many years. Has been proven to be 75% rust proof under the most adverse conditions and this De Luxe mixture contains a higher percentage of the more desirable colors—canary yellow, rose pink, salmon pink, and white—nicely balanced with the usual run of the orange and red shades. A type of Majus Grandiflorum. (See page 4.)

BEGONIAS CARMEN RED AND CARMEN SALMON. Dwarf, bushy growers, with deep dark brown foliage. Exceptionally free flowering and make beautiful showy plants. Carmen Rose was introduced two years ago, and with the Red and Salmon completing the color range, these Carmen Varieties bid fair to lead the Begonia family. (Illustrated on page 7.)

CALENDULA ORANGE SHAGGY. A Gold Medal winner in the All-America selections for 1935, and a very distinct new break in Calendulas. The petals are long and deeply fringed or lacinated, giving the shaggy appearance of some Chrysanthemums. The color is a deep orange shading to lighter orange in the center, giving the flower a pretty two-tone effect. (See page 8.)

COSMOS ORANGE FLARE. Grand Champion Gold Medal Winner—the unanimous choice of all the judges in the All-America Competitions for 1935. Early Klondyke type, bright vivid orange, very free flowering, with a sparse growth of attractive light green foliage. The plants are in full flower in less than four months from sowing, and are a mass of color all season. The sensation of the year. (See page 13.)

DIANTHUS LACINIATUS SPLENDENS. The most striking Dianthus ever offered, and was awarded Special Mention by the All-America council. The large single flowers of brilliant crimson, contrasted with a glistening white eye, are borne profusely on neat, dwarf, compact plants. (Illustrated on page 12.)

NASTURTIUM DOUBLE SCARLET GLEAM AND GLEAM HYBRIDS. Bodger's Double Sweet Scented Scarlet Gleam, awarded Gold Medal in 1935 All-America Novelty selections. Intense dazzling scarlet flowers, and the plants are of the half dwarf type, and bushy. Extra large flowering and indescribably beautiful. Bodger's Double Glorious Gleam Hybrids Mixed won an Award of Merit, and is another remarkable achievement in Plant Breeding. Large, well formed, sweet scented double flowers, in a kaleidoscopic range of colors, on half-dwarf plants. (Illustrated on page 20.)

ZINNIA FANTASY. A most fascinating new type of Zinnia, and an Award of Merit winner. The shaggy appearing flowers are very graceful, and quite distinct from the stiff, formal Zinnias. It is of the curled and crested type, really quilled and twisted, in a mixture of colors which includes the brightest shades of red, yellow, and orange, as well as the popular pastel pinks and cream. (Illustrated on page 29.)

OUR SPECIALTIES

BEGONIAS — A most complete listing of the old favorites, recent introductions and latest novelties of merit. And for quality, there is no finer stock to be had. These are the productions of only the World's Leading Begonia Specialists, and the seeds of each and every variety offered were produced by hand pollenization of greenhouse-grown plants. This assures our customers of stock that will be true to name and color, and which will show a remarkable uniformity and perfection of growth.

CALCEOLARIAS — Offering the finest strains to meet the requirements of the most exacting growers. From the large flowering types—true Kelway's Perfect Model, Albert Kent Hybrids, and Grandiflora Nana—to the new variety Flower Cloud with medium-sized flowers in all colors; and through the small to medium-sized flowering Multiflora Nana in gay contrasting color schemes with its first separate color Golden Tiger, to the small flowering Rugosa varieties, all are real thoroughbreds.

CINERARIAS — Heading the list with true Weissensee, followed by Berlin Market or Potsdam Strain, Multiflora Nana Improved, Grandiflora Maxima, Multiflora Nana Grandiflora Maxima (all carried in separate colors) and the original Cremer's Prize Strain, we are proud of this most complete coverage in Cinerarias.

PANSIES — Constant contact with the leading Pansy Specialists in America and Europe, enables us to offer the finest strain of Superfine Giants, Roggli Giants in separate colors, Improved Swiss Giants, Trimardeau Giant Spotted Parisian, Giant Orchid-Flowered, and true Winter-Blooming Giants, also in separate colors.

PETUNIAS — The finest obtainable in the World markets. The All-Double strains originated by Sakata & Co., Yokohama, Japan, were the sensation of 1934, and this year we are again offering the true originator's stock. From Germany, we have the Giant Ruffled Superbissimas, Giant Fringed Singles (Fimbriata), and Giant Plain-Edged Singles (Grandiflora), which are unsurpassed for true reproduction because the seeds were matured on pot-grown plants under glass, and not taken from field plantings. Then there are the selected strains of Dwarf Giants of California and Superbissima Nana—the largest flowering ruffled giants—and many named sorts all direct from the originators. For the Bedding and Balcony types, we have chosen only the most responsible growers, and confidently believe that our selections will please the most discriminating growers.

PRIMULA OBCONICA — Each season we offer only the new crop seeds, and these are imported direct from the most renowned Primula Specialists in Germany. All are the true strains as named and the many unsolicited testimonials from an ever-increasing list of Primula customers, substantiates our belief that these are the choicest cultivations grown. In the Malacoides type, the Erikssonii varieties, and Brehm's Dwarf King and Oranienburg from Germany, fill the most particular needs.

MISCELLANEOUS ANNUALS — All from only the most reputable sources, and then direct from the originators wherever possible. And of especial importance are the many novelties, i.e., *Achimenes*, *Celosias Dwarf Fire Feather* and *Dwarf Golden Feather*, *Coleus* in nine sorts, *Exacum Affine*, *Gazania Splendens Hybrida*, *Gerbera Jamesoni Hybrids*, *Gesneria Robusta Hybrida*, *Gloxinias*, *Kalanchoe Globulifera Coccinea*, *Lilies* from seed, *Saintpaulias*, *Salvia Rakete*, *Statice Puberula*, *Streptocarpus Hybrids*, *Trachelium Coeruleum* and *Venidium Fastuosum*, which come from the foremost growers throughout the world.

PERENNIALS AND BIENNIALS — A selected list of the very best and most popular sorts — Novelties and Rare Species included — from responsible growers specializing on these seeds.

ASTERS (Continued)

GOLDEN SHEAF. The deepest yellow aster yet offered, and the only one that is wilt-resistant. The flowers are fully double, with an attractive crest-like center, of good substance and fine depth of petal. The flowers last well when cut, and are excellent shippers.

Tr. Pkt., 50c; 1/4 oz., \$1.25; 1 oz., \$4.00

SUPER GIANT LOS ANGELES. The first of a new race of Asters, which promises to supercede all other strains for cut flower use. It is of the general habit of the Giants of California, but earlier and much larger than any of that type yet introduced. But, while the flowers are large, they are most artistic, due to the unusual curling and interlacing of the petals, giving a light feathery effect. The color is a pure shell-pink, stronger stems than in the Giants of California, and unusually long, while no disbudding is necessary due to the non-lateral habit.

Tr. Pkt., 50c; 1/4 oz., \$1.25; 1 oz., \$4.00

Peony-Flowered Aster

PEONY-FLOWERED. (Truffaut's) Large, double blooms, strong stems, upright branching.

BEGONIAS**CARMEN RED****CARMEN SALMON****CARMEN ROSE****Begonia Carmen**

Carmen, when first introduced two years ago, was available only with rose-colored flowers. Now, however, the originator has developed the **salmon** and **red** shades, and this is the first seed to be placed on the market. Dwarf, bushy growers, with deep dark-brown foliage. All are exceptionally free flowering and make beautiful showy plants. **Carmen Rose** was highly acclaimed by all who made their first sowing last year, and with the **Red** and **Salmon** completing the color range, these Carmen varieties bid fair to lead the Begonia family.

PANSIES

GERMANIA SUPERFINE GIANTS. Finest mixture of jazzy colors, rich in yellow with many of the five-blotched type. The finest in large-flowered, fancy colored Pansies. Stock limited.

Tr. Pkt., \$1.00; 1/8 oz., \$1.75; 1/4 oz., \$3.00; 1 oz., \$10.00

ROGGLI GIANTS. The most wonderful strain in existence. Flowers are of enormous size—3 in. and over in diameter—perfectly round in form with overlapping petals, borne on long vigorous stalks well above the exceptionally large and healthy looking foliage. The most striking qualities of this strain, however, are the beauty, brilliancy, and richness of colors. Very rare and entirely new tones, never before seen in any Pansy Mixture.

Tr. Pkt., 75c; 1/4 oz., \$1.75; 1 oz., \$6.50; 4 oz., \$22.50

PETUNIAS

All Double Petunias

ALL DOUBLE DWARF GIANT FRINGED "VICTORIOUS"

Originator's seed of this dwarf compact Petunia which produces 100% doubles. They bear very large, double flowers in a wonderful assortment of brilliant and fancy colorings. Remarkably uniform in growing habit and make excellent pot plants.

ALL DOUBLE TALL GIANT FRINGED "TRIUMPHANT"

Improved 100% double flowering mixture, and also true originator's seed. Produces flowers of immense size, some 5 inches across, in a most effective assortment of colors.

ALL DOUBLE DWARF GIANT FRINGED "ROSY CARMINE" (World Beauty)

A 100% double strain, producing beautiful rosy carmine flowers on dwarf and compact plants.

Tr. Pkt., \$2.00; 3 Tr. Pkts., \$5.00

Small Flowering Double Petunias

Rosy Morn. (Rose Bonheur) Pure rose, pretty.

Lilliput Mixture. Pretty, dwarf bushy plants, 10 in. high. From 50-60% double flowers. Fine colors (selfs, spotted and striped), charming for pots.

500 Seeds, 50c; 1000 Seeds, \$1.00; 2500 Seeds, \$2.25; 5000 Seeds, \$4.00

Giant Ruffled Single (Superbissimas)

Ruffled monsters, producing exhibition flowers 4 to 6 inches across, in gorgeous color combinations. Open throats with varied-color markings, and make exceptionally showy plants. These are the productions of one of the world's leading Petunia specialists in Germany, where the plants were matured under glass, and hand pollenized. This insures purity of strain and true reproduction from the seeds.

Camilla. Rose-pink, red veined with dark throat. Extra large flowers.

Dark Copper Red. Exceptional large flowers, highly desirable red shade.

German Empress. A rich lilac shade, purple veined, dark throat.

Harlekin. Red and white spotted, very showy.

King Alphonso. Dark purplish red, black throat. Boldly waved and heavily frilled.

Dwarf Giant Ruffled

Superbissima Nana. A splendid mixture of new, compact growing, ruffled Petunias. These have never been surpassed, if ever equalled, for size, beauty, and range of colors. The height of this strain is only 1/2 to 2/3 of that of the regular Superbissimas. The flowers are very large and substantial, and the display of colors is an extraordinarily rich one, showing all shades, some with deep dark throats, as well as others with the most lovely vein markings.

SAINTPAULIA

Saintpaulia Ionantha Cordata

Ionantha Cordata

This late introduction attracts justified attention owing to its very dark heart-shaped leaves, strong growth, and the large flowers of a lavender-blue color. The many blossoms carried on strong stems freely above the foliage give this plant a pretty and grand effect. Blooms in 6 months from seed and is noted for its long flowering period. Comes true from seed.

Ionantha Grandiflora

(Usambara Violet) A dwarf, showy pot plant with small Gloxinia-like leaves. Beautiful dark blue flowers, resembling those of a Sweet Violet. Very free and large flowering.
